You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of Brown' Iron Bit-TERS, and taking it regularly according to directions.

> Mansfield, Ohio, Nov. 26, 1881. Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines and my treated different tite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast and I have a all out of my breast, and I have a good appetite, and am gaining in strength and flesh. LITTLE ROCK (Ark), December 13th.—The following has just come to light: At the beginning of the rebellion Abraham Hall lived in one of the thinly-settled border counties. He was 70 years old and wealthy, owning a large tract of land, great herds of cattle and a large but not costly residence. He had a family one boy, aged 10, and four girls, aged 8 to 16 years. The old man ciaimed to be neutral, and while his neighbors were buckling on their armor, Hall remained at home. The South called for every man capable of bearing arms to culist and Hall was called on to volunteer, but declined. One night a party of twelve persons rode up to the house and repeated the demand for LITTLE ROCK (Ark), December 13th, -The One night a party of twelve persons rode up to the house and repeated the demand for Hall to volunteer. The old man said he preferred death. He was taken from the house to a little ravine 200 yards away, a rope put around his neck and thrown over a tree, and Hall was once more asked to reconsider. He declined, whereupon he was drawn up and let down senseless. Reviving, he again refused, and was again deawn up. he again refused, and was again drawn up. The son of Hall had followed the party, and hiding behind a clump of bushes was a silent, horrified spectator. He receptized every action in the cruel affair. When the men gallped away he ran from his hiding-place, cut down the body, and, flinging himself upon it, registered an oath to slay every man who had taken part in his father's death. The war ended, and young Hall managed his father's estate, aided by his sisters, and prospered. Almost their nearest neighbor was Frank Parker, who led the band who hung Hall in 1865. BOOTS AND SHOES

We cannot see the consistency in the logic of some dealers in BOOTS AND SHOES. We have a thorough Shoeman-one we have personally known for over 40 years-continually in the New York, Boston and Philadelphia Markets, buying for us the very best makes and qualities, at the VERY BOTTOM PRICES FOR CASH; consequently we can and do offer better goods for the money than any other House in California.

We have good reasons to believe that those who dote upon their superior ad-

CHRISTMAS STORY.

In the Christmas number of the RECORD-UNION will appear a Christmas story, written for this journal by one of the most talented and popular of European novelists. It will be complete in that num. of Executive clemency, and allowed that ber, and will probably occupy between fourteen and same convict liberties wholly at variance fifteen columns. It will be found to be a deeply interesting romance, strong in character sketches, powerful in its descriptive phases, and to have a plot most natural and of thrilling interest. It will n all respects be the leading and most attractive Christmas story published in any news journal of he country.

THE PREVALENT PEVERS. There is in this State some alarm on account of the prevalent fevers-especially those of typho-malarial form. Physicians who have given the matter much study say that these fevers are not confined to any particular locality; that they are endemic in character, as a type of American disease, and that they are more prevalent in New York, New Hampshire, and especially in Connecticut, than in any other States, though appearing in nearly all. That they are not always due to local causes is found in the fact that they break out and rage this year in remote localities, which have been heretofore each considered the very paradise of health, and the situation of which should assure them against violent diseases. A gentleman who arrived here yesterday from the cold mountain regions of northern Idaho and Washington Territories speaks of typhoid fever being found this season on the mountain tops there, and at shall be extirpated at any cost of effort one settlement he was told that no less than fourteen cases were then in the hands of the local physician-and this, in a place | sees a party advantage in the measures where no possible sewer gases, or drain proposed by his bill. LIGHTHILL'S professional attention has been exclusively devoted to the relief and cure of these important ailments, and it is with pardonable pride that he refers to the success which he has achieved in this special department of medical science. His apparatus and appliances for the examination and treatment of the hidden cavities of the year has been ascertained to be 2 644,000 head, throat and air passages are original, gallons. This is the product of sixty-one and confessedly the most perfect of anything cellars, and only once previous has this of the kind yet devised, enabling him not only to readily discover the exact nature of the complaint, but also to direct his applications to the diseased parts so effectually that relief is experienced at once, and permanent cures are often effected in the most stubborn and aggravated cases. And it is one of the happy features of his practice that the applications cause neither pain nor distress, and can therefore be readily administered to the most timid or nervous person.

A candid opinion will invariably be given as to the probabilities of a cure, and no case will be accepted for treatment which does not offer a reasonable chance of success.

highest bidder the south portion of the BRIGGS BROTHERS' VINEYARD, containing So Acres of the Choicest Fruit and Vineyard Land, lying along Putah Creek, Solano county. The ground lays along the County Railroad, south of Winters one-half mile.

IMPROVEMENTS: Forty-six Acres are in Raisin Grapes, three years old this past Fail, and are in good bearing; about 30 Acres of Bartlett Pear Trees, planted last Spring; and about 4 Acres of Peach Trees - are 7 years old.

Advantages of this Valley.

The Vacaville Belt is as much a semi-tropical region as Los Angeles. It is earlier, as is proved by marketing the first fruit every year, even in Los Angeles' specialty, oranges. It is noted for the Wolfskill Orchard, on Putah Creek, which has several times sent the first oranges to San Francisco. Of course, the earliness of the Vacaville fruit is a part of its market value, and a most important part. Every year the first sent to the San Francisco market realizes almost fabulous prices. Now that the Eastern shipments are successful, the market has no limit, and the Vacaville fruit promises to become of constantly increasing importance; while at the game time the enormous consumption of the canneries insure what was before lacking, a remunerative market for later fruit. No less remarkable is the Vacaville fruit for quality than earliness. Take, for example, peaches or apricots, which are grown successfully in the Sacramento Valley. In the Sacramento bottom lands the fruit is frequently larger, but it has not the exquisite flavor of the Vacaville fruit, and is more watery. Canners pay a cent and a cent and one-half per pound more for Vacaville peaches, apricots, etc.

Shipments from Vaca in 18-1: 9.750 672 pounds of

fruit and vegetables, including 150,000 pounds of dried fruits, besides 100,000 pounds carried over not included in florest neluded in figures.
Shipments for 1882: 9,724,630 pounds, and season Shipments for 1882: 9,724,620 pounds, and season not yet closed.

George Brouzham's Canning-house has canned this season 356,000 cans, wo king with full capacity and 100 hands. This firm put up 5,000 cans a day of apricots, pears, currants, plums and small fruits.

The property we offer is located in the choicest part of the State, and the very cream for vinoyard or orcherd purposes. Climate is unusually mild and even. Wood and water abundant, coil particularly adapted for the production of grapes, apricots, cherries, peaches and other fruits and grains. Vines and trees now growing make it self-austaining to-day.

To persons seeking a sure investment or a home in the country, with his own vine and fig tree, with charming seenery, good soil, delightful climate and a safe business proposition, this is a favorable opportunity to secure them on most liberal terms.

LOGAL INTELLIGENCE. THE CONTESTED ELECTION.

The trial of the election case of Coglan vs. Beard was resumed in the Superior Court yesterday at 10 A. M. The attorneys for the respondent began their case, the contestants This was done, and resulted in a gain of one vote for Coglan in Precinct 1½ and one vote for Bard in Frecinct 1½ and one vote for Bard in Frecinct 3½. The ballots of Precincts 1, 3 and 4 were then examined in reference to the handwriting of the name of C. M. Coglan. A number of ballots of Democratic, Peoples' and Prohibition tickets were selected. Frank Miller was then sworn as an expert. It was agreed between counsel that he is an expert. Over 40 ballots from Precinct 1 were given to him. After examination he stated that the name of Coglan on two of the ballots was written by the same hand; that three others were identical, and that seven, which were all Democratic, were evidently the same. Of these seven tickets he also said that the name of Grove L. Johnson was in a different hand, and that of Joseph Routier in still another. On four Prohibition tickets he said the hand-carriting was alike, but not the same as the Democratic tickets. After a comparison of tickets taken from Precincts 3½ and 1, he

OSTRICH FARMING .- A cargo of twentyone ostriches recently passed through this city on their way to Southern California. They were two weeks on the way from New York, and were in charge of a man named Scetchly, who has been with them ever since arrive in Sacramento to-morrow. they were shipped from Africa. He stated that the cest of shipping was about \$2,000. They are to be taken to an 800 acre farm in outhern part of the State, where the experiment of ostrich farming is to be tried. The value of the bird consists in its feathers, which are used as ornaments. These feathers from \$600 to \$700 per pound, and the state of the state o They are said to eat anything, from the finest grass, fruit and grain to shell fish and tincans, and there appears to be no reason why the experiment should not be a success.

CAN'F GET THE MONEY YET. The Odd Position in which the Board of State Prison Commissioners Find Them-

Two items have already appeared concerning the State Prison Directors' salaryexpenses case. It has taken on a new and interesting phase, and demands for an intelligent comprehension of the matter a resume of all the facts. On Monday, the 11th, the State Prison Directors, through their attorney, Charles B. Darwin, appeared before the Superior Court of this county and paid over to the Deputy Attorney-General, on behalf of the Directors, the several sums they had received from the State under the suit in the name of the State to re-cover back said sums. The case was tried in the Superior Court of this county and decided in favor of the Directors. It was then appealed to the Supreme Court, and by that body remanded to the Court below, with re-

versal of the judgment, on the ground that the Act (1881) under which they drew the money was unconstitutional. The action was then dismissed, and the Attorney General paid the several sums received, which amounted to \$11,087 80, back into the treasury. These were paid over by the Directors as follows: Director Everson, \$1,774 15; Director Schell, \$2,307 60; Director McNutt, \$749 55; Director Neff, \$2,641 85; Director Chapman \$3,614 65 Chapman, \$3,614 65.
On Tuesday, the 12th, the Directors named

having rested. There was a discrepancy of one ballet between the tellers in the recount of Precinct 1½ and same in Precinct 3½, therefore counsel demanded that the ballots of those two precincts should be counted again. This was done, and resulted in a gain of one vote for Coglan in Precinct 1½ and one vote the government of the State Prison provided that the Directors named filed their claims for expenses actually incurred and mileage with the State Board of Examiners, which body allowed them the following amounts thereon: A. H. Chapman, \$3,536 55; Wallace Everson, \$554; W. F. McNatt, \$372; J. H. Neff, \$1,953 60; G. W. Schell, \$1,646 75. The Act of 1880 for the government of the State Prison provided that the Directors should receive no salary.

Judge Hunt, in the case of A. F. Craven vs. Central Pacific Railroad Company, has denied the motion for a new trial. The action was brought to recover damages for an injury sustained by plaintiff's wife, in alighting from defendant's cars. The principal question of fact in the case was Toaknowledge and Curoof Proinpass Uterl, whether the plaintiff's wife sustained the injuries in consequence of an attempt to leave the cars while they were in motion, as claimed by the defendant, or whether the injuries resulted from the servants of defendant starting up the train as she was alighting. In the first trial, in which judgment was recovered by defendant, testimony was introduced to show that Mrs. Craven, upon several occasions, got off the train when in motion; that she had been spoken to about it, and had been cautioned against doing so. The plaintiff moved for a new trial, on the ground that the admission of this testimony, which was objected to, was an error. Judge Hunt, in denying the motion for a new trial, held that proofs of former and kindred acts of negligence are admissible in cases of this character.

KNOWLEDGE IS POWER! READI

The untold miseries that result from indiscretion The untold miseries that result from indiscretion in early ife may be alleviated and cured. Those who doubt this assertion should purchase and read the new medical work published by the Peabody-Medical Iestitute, Boston, cutitled the Science of Life: or, Scif-Preservation. It is not only a complete and perfect treatise on Man-hood, Exhausted Vitality, Nervous and Physical Debitty, Premature Decline in man Errors of Youth, etc., but it contains one hundred and twenty-five prescriptions for scate and chronic dis-cases, each one of which is invaluable, so eases, each one of which is invaluable, so proved by the author, whose experience for 21 veers is such as probably never before fell to the lot of any physician. It contains 300 pages, bound in beautiful embossed covers, full gilt, embellished with the very finest steel engravings, guaranteed to be a finer work in every sense—mechanical, literary or professional—than any other work retailed in this country for \$2.50, or the money will be rethis country for \$2 b0, or the money are to funced. Price, only \$1 25 by mail. Gold Medal awarded the author by the National Medical Association! Illustrated sample sent on receipt of six cents. Send new.

Epps's Cocoa,

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until trong enough to resist every tendency to disease, ilundreds of subtle mandaties are floating around us roady to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourse'ves well fortified with pure blood and a properly nourished frame."—[Uivil Service Gazette

MCCREARY'S PATENT

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight emarting purning sensation, and a weakening of the system in a manner-the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sunday, from 10 to 11 A. M. Consultation free. Thorough examination and advice, 25. Call or address

Letter from a Traveler.

Kansas City, Mo., Sept. 20, 1882.

I think it a duty I owe to humanity to say what your remety has done for me. One year ago I contracted a bad case of blood disease, and not knowing the result of such

disease, and not knowing the result of such troubles, I allowed it to run on for some time, but finally applied to the best physician in this city, who treated me for six months. In that time I took over 600 pills of protoiodide of mercury, I grain each, and had run down in weight from 210 to 157 pounds, and was confined to my bed with Mercurial Rheumatism, searcely able to turn myself in bed. Being a traveling man, some of the fraternity found me in this deplorable condition, and recommended me to try your specific.

its use. I commenced the use of it with very little faith, and in less than three weeks was able to take my place on the road. The sores and copper colored spots gradually disappeared, and ts-day I have not a sore or spot on my person, and my weight is 217 pounds, being more than it ever was. I do not wish you to publish my name, but you may show this letter to any who doubt the merit of S. S. S., for I know it is a sure cure. Yours truly, J. H. B.

Some thirty years ago there lived in Montgomery, Ala., a young man who was terribly afflicted. After being treated for a long time by the medical profession of this town with no benefit, he commenced taking S. S. S. After persistently taking it two menths he was cured. Being acquainted with him for twenty years thereafter. I can tettify that the disease never made its return.
